

Daily Hearing Aid Check: Every Morning

Listen to the hearing aids

- Use a hearing aid stethoscope (listening tube) to check how the hearing aid sounds

Check the condition of earmold and hearing aid

- Tubing cracked, hearing aid damaged:
Call the audiologist

Are the hearing aids amplifying? if not:

- Change battery
- Check microphone for debris
- Check earmold opening for blockage
- Listen again, if concerned:
call the audiologist

Before Bedtime

- Open battery doors
- Place hearing aids in dry aid kit (without batteries), as needed, to remove moisture

More help available at:

www.heartolearn.org/short/hearingaidvideo

Ask your audiologist for a loaner hearing aid if repair is needed.
